STEEL MILL

# STEP INTO THE FUTURE

As a world class producer of superior, heat-resistant products for international and domestic markets, Steeltech Ltd. achieves maximum customer satisfaction by taking the extra step.

Since 1929, our organization has cast its reputation in quality service and reliability by going beyond industry standards. Steeltech's commitment to continuous improvement insures consistent, premium parts that perform above and beyond your expectations.

The Steeltech pledge to provide high-tech, cost-effective products takes us where some suppliers fall short. Quality is more than an ideal to our operations—its a requirement. Our strict adherence to exacting quality manuals and definitive alloy specifications helps us check every critical aspect of every product we make.

Our product line includes walking beams, furnace riders, recuperators, blow pipes, radiant tubes, furnace rolls and heat-resistant castings of all types. We offer welding and fabrication, machining and assembly as well as computer-aided design for parts and tooling.

At Steeltech, your guarantee starts with our promise to meet or exceed the requirements of your specific application. From the latest in technology to top-rated materials, Steeltech is a step ahead of the pace.

Whether you need a source for your proprietary patterns or a supplier to test new revolutionary designs, it's time that you took the next step—call Steeltech today.

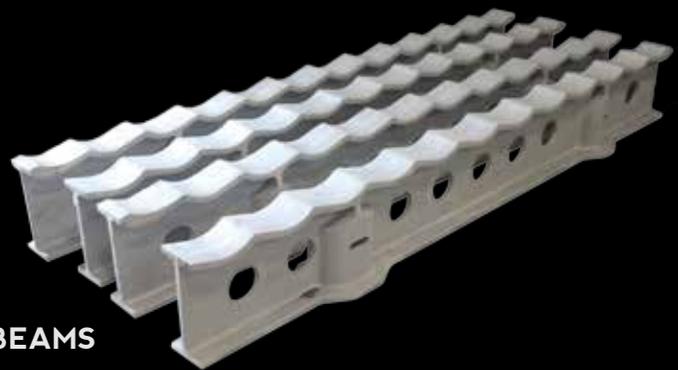

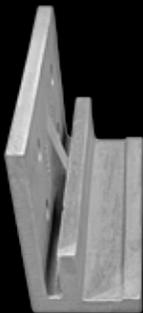

**RADIANT TUBES (ALL TYPES)**
