**THE NEXT GENERATION OF TRAYS
YOU CAN TRUST**

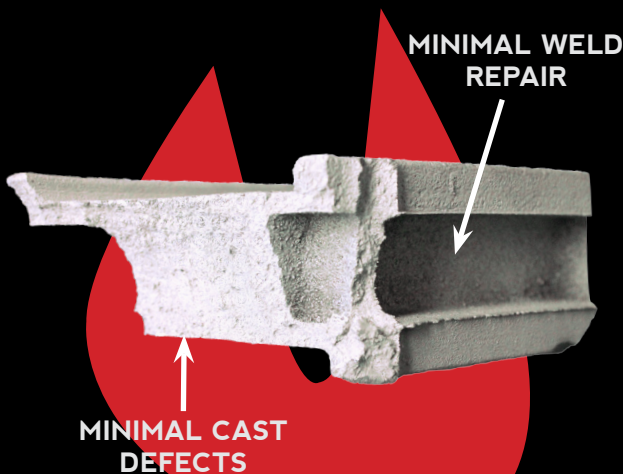

ADVANCED-TECH TRAYS

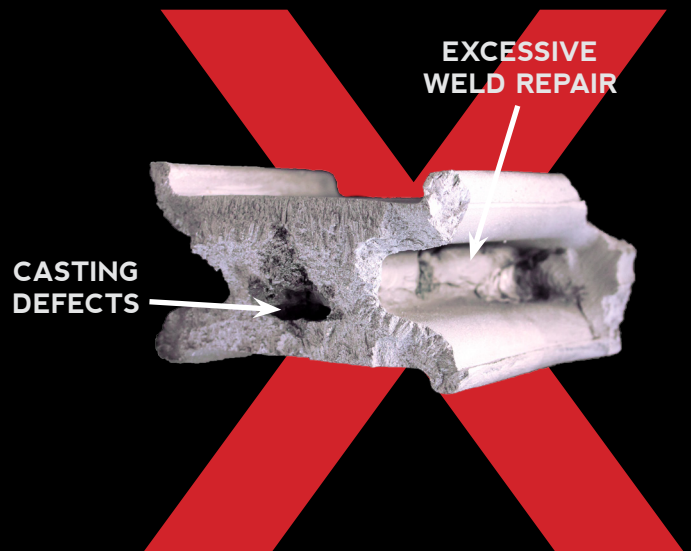

Steeltech Ltd. prides itself on continuously improving casting quality. Through extensive research and development, we introduce our Advanced-Tech Tray. With advanced casting software and production techniques, we have developed a tray that is superior to the competition. In an effort to raise the industry standard, we compared our Advanced-Tech Trays to our competitor's. The Advanced-Tech Tray has fewer voids and less welding, resulting in a stronger casting. A tray you can trust.

ADVANCED-TECH TRAYS INCLUDE:

- Chemistry Consistency
- State-of-the-art parametric and solidification software
- Advanced gating and risering technology
- Exceeding automotive standards for controlled shrink
